**Effective:**

the new Needlebed washing machine

**H2G Junior**

is an innovative machine completely made of stainless steel, and it allows the cleaning of the needlebeds of knitting machines of any brand, up to 150cm long.

**Efficient:**

One of the strengths of **H2G Junior** is the software: intuitive, easy-to-use and designed to allow an automatic management of the entire washing cycle.

**H2G Junior** is equipped with a system able to detect automatically the shape of the needlebed and customize the washing cycle in function of the size of the needlebed to be washed.

**Fast:** It takes only 20 minutes, regardless the gauge of the needlebed, including the process of drying.

**Compact:** its dimension makes **H2G Junior** perfectly suitable for any space.
